About Me

Front-End Developer

As a skilled web front-end developer, I specialize in creating responsive and visually appealing user interfaces. With extensive experience in Next.js, Tailwind CSS, and Bootstrap, as well as Next UI Components I excel in building dynamic web applications that prioritize performance and user experience.

Experience

Code Cradle Technologies 2023

Web Designer

- Developed and maintained dynamic, high-performance web applications using Next.js, ensuring seamless user experiences and optimized load times.
- Implemented responsive design principles with Tailwind CSS and Bootstrap, creating visually appealing interfaces that adapt seamlessly across various devices and screen sizes.

Education

2020-2024

Sadiq Egerton
college

Getting my BSc Degree from Sadiq Egerton
College Bahawalpur, Pakistan . Final Year Project
is Based on **AI Based Game (FPS)**

BSc Computer Science
